

EPFL – Internships Microengineering and Robotics

- General context
- Administrative procedures

The internship: Excellent Opportunity !!!

□ Students

- **A Great incentive to ask oneself the right questions !**
- Familiarize with working life
- Immerse into Industry practice
- Future Hiring opportunity

□ Companies

- Benefit from highly qualified students
- A new insight on current issues, innovate !
- Evaluate futur employees

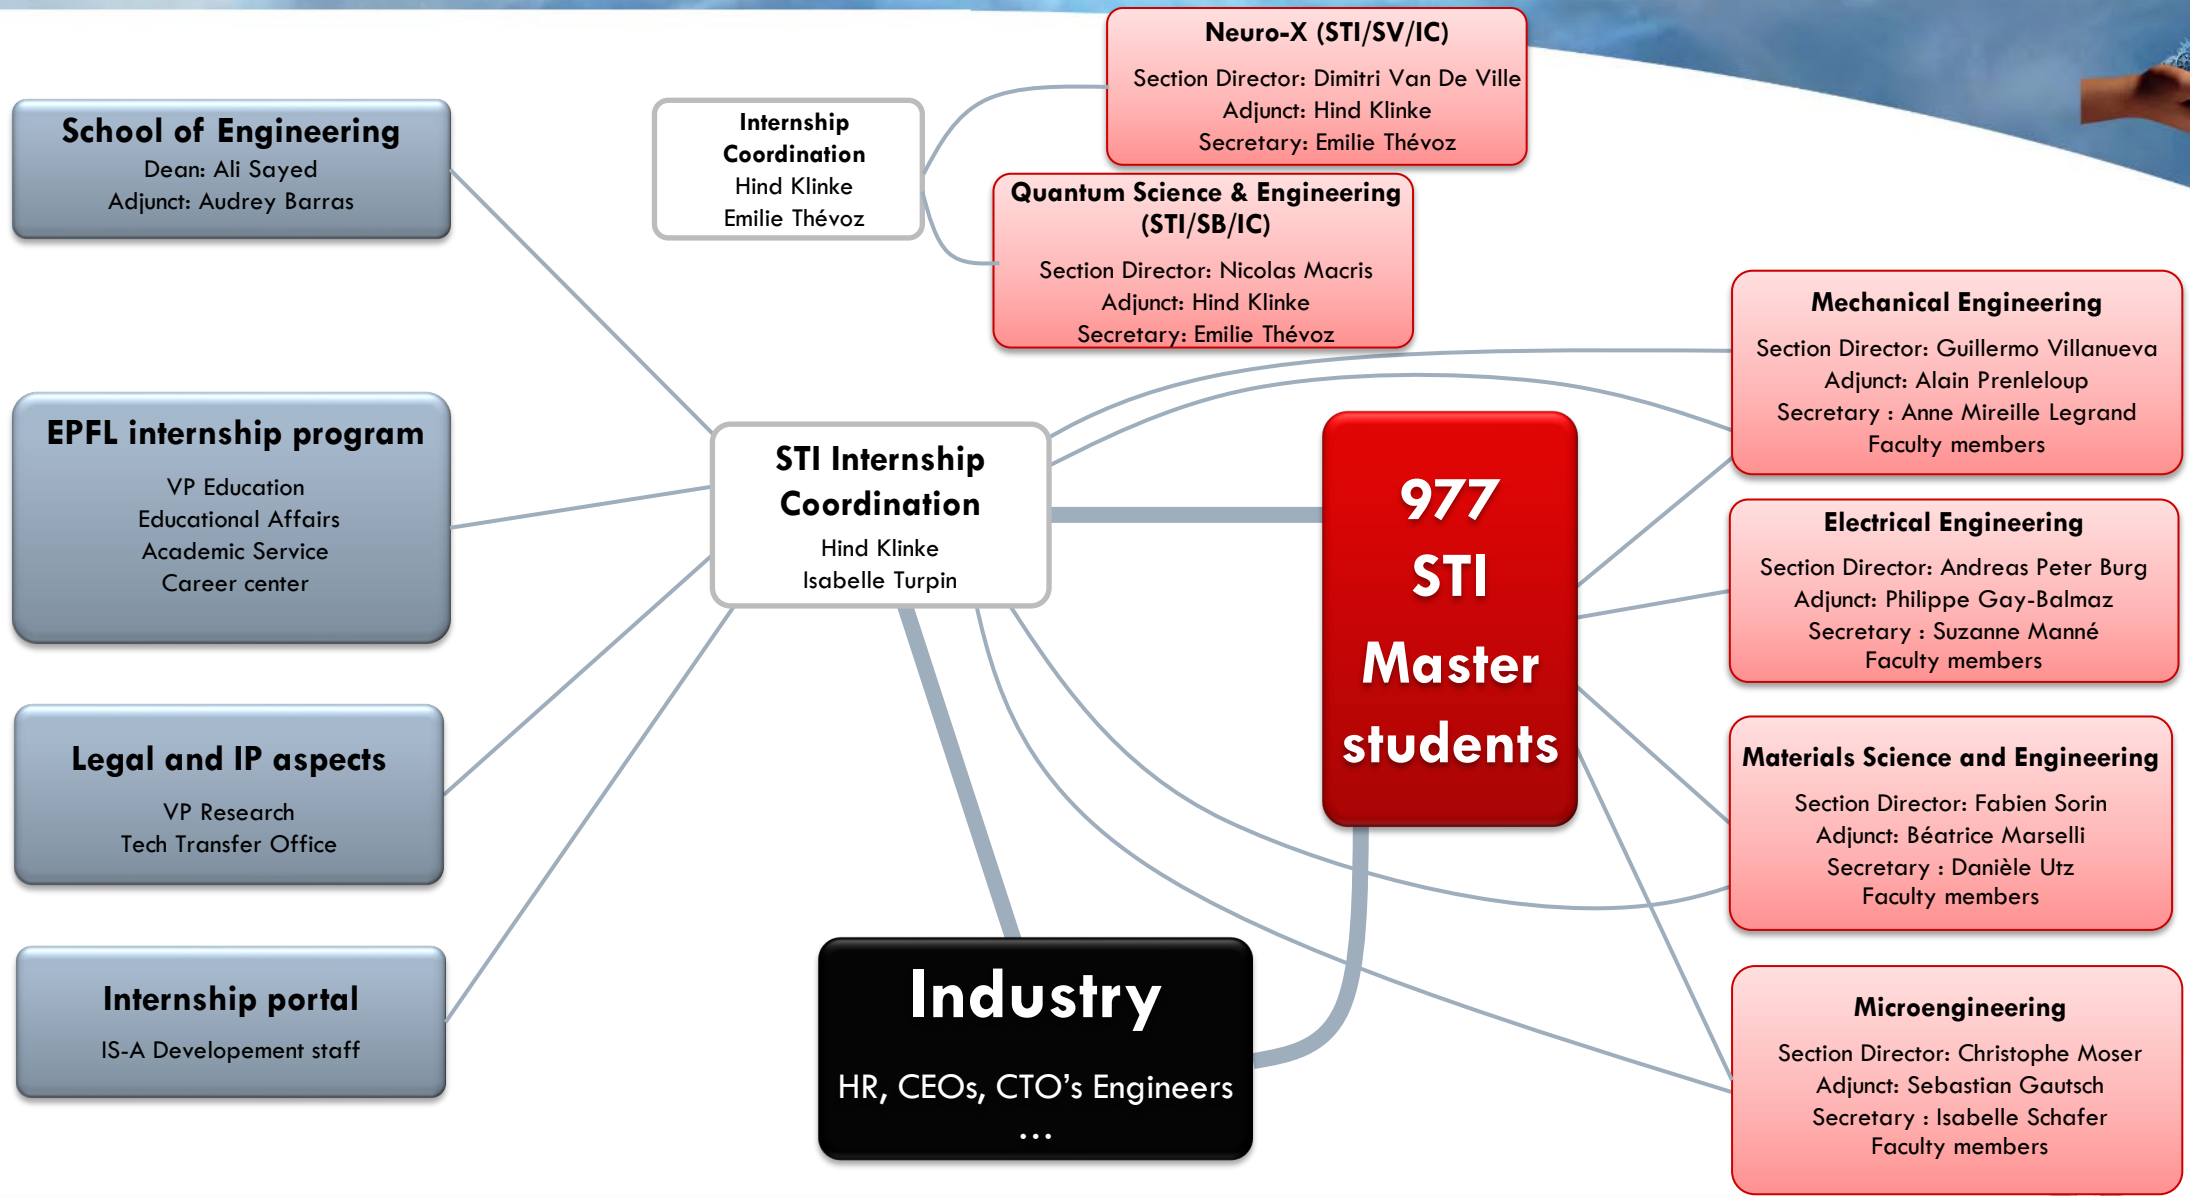

□ EPFL

- A direct link to industry
- A platform to start collaborations on the research level
- Feedback from industry to improve the education of our students

EPFL

STI Internship Coordination

Internship obligation

- The Internship in industry is a mandatory step of the Master degree
- Possible formats to validate this obligation

Models:

STAP: Detached internship but credited with the master's project

PDME: Master project in the industry

	Models	Duration	Periods
MT & Robotics	STAP	Min. 8 weeks	After bachelor, after MA2 or MA3
	PDME	25 weeks	During the Master project

Mandatory Internship or Master Project in Industry

□ Internship

- Minimum duration of 2 months, up to 6 months
- Immersion into industry
- Familiarize with company processes
- Acquire specific competences
- Apply transversal skills
- Evaluation report by student and industry supervisor

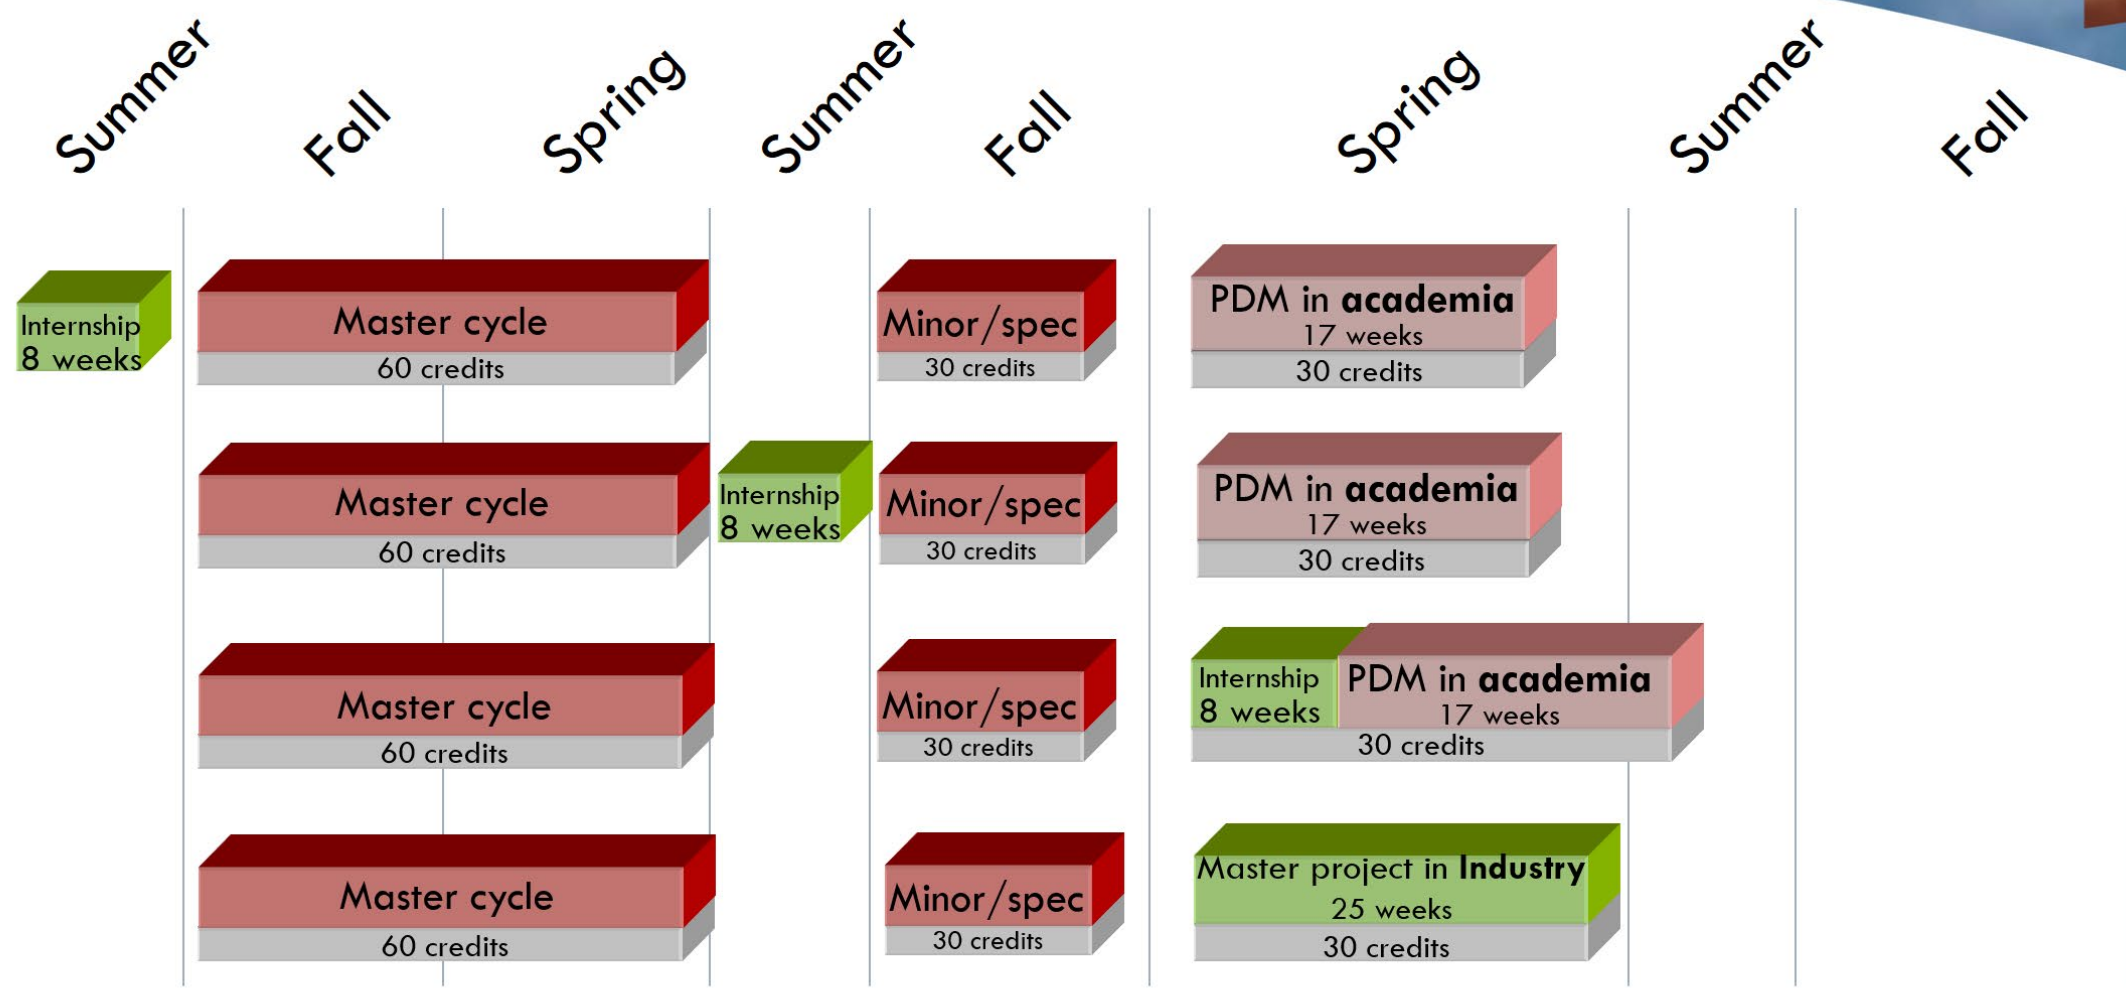

□ Master project in industry

- A research project in the company
- Student applies the competences acquired during his master
- Supervised by a Professor **from his section**
- Written report and oral defense
- **Regular feedback to Professor**
- 25 weeks duration (+1 week vacation)

Internships between bachelor and master

- If you have finished your bachelor and would like to take an interim year to do your mandatory industry internship for your master, [the following academic rules](#) and FRAC status' apply:

In option 4 the fall semester will be accounted to your master studies, except if you are doing your army or civil service

What is considered «Industry» ?

- Every company or start-up offering a workplace outside of an EPFL laboratory and outside of a university
- Every Research Organisation not delivering academic credits

How much salary ?

- There is no official regulation in Switzerland to pay a monthly salary for an internship.
- Salaries are mostly ruled by offer and demand
- Often the salary is dependent of the company's size and status
- EPFL recommends a typical monthly salary around **2'000** SFr. However, there is no obligation of the company to comply with this.
- In Case of a *Master Project in Industry*, remuneration can be handled more freely (no monthly salary, compensations, bonus at the end, ...)

Internships outside Switzerland

Some recommendations for an internship abroad:

<https://www.epfl.ch/campus/security-safety/en/security/travels-abroad/plan/>

Work authorization

(not required for Master Projects without a monthly remuneration)

- The federal council allows foreign students of Swiss academic institution to perform a mandatory internship during their studies: <https://www.admin.ch/opc/fr/classified-compilation/20070993/index.html#a39>
- Students with Non-EU/EFTA passports require a valid **work authorization** to do their internship or Master project with monthly salary in Switzerland or EU countries.
- EU students performing a 3-6 month internship have to be simply **announced** at the cantonal office
- It is the company's responsibility to request this authorization at the proper working office of their canton/country ([Link](#) to obtain a mandatory internship certificate.).
- It requires up to 8 weeks to obtain this authorization from the cantonal offices.
- We recommend that students from non-EU/EFTA countries inform the companies in their motivation letter of these regulations.

Example: "As I'm a non-EU/EFTA resident, your company would be required to ask for a temporary work authorization. Please be advised that the federal council allows foreign students of Swiss academic institution to perform a mandatory internship during their studies: <https://www.admin.ch/opc/fr/classified-compilation/20070993/index.html#a39>. As I will stay registered at EPFL during this internship, and since this internship is a mandatory part of my Master education, the delivery of this document does not fall into the quota limitation of each canton and is therefore straightforward".

EPFL – Internships Microengineering and Robotics

- Administrative procedures

How can you find an internship ?

- It is the student's responsibility to find an appropriate internship to validate his Master degree.
- No responsibility can be taken from EPFL side if no internship has been found by the student
- The student can find an internship position by himself, but the subject needs to be approved by the section deputy
- EPFL offers an internship portal on which students can find an alternative to their personal quest for finding an internship.
- Access to the EPFL portal is given through the student's IS-Academia account

Sustainable Internships

How to identify them ?

Company submissions are listed on the internship portal once validated by each section. Internships with a sustainability label will be identifiable with the following logo:

Evaluation report

The evaluation process of the internship is similar to a regular internship but the student is asked to write a **half-page report** to comment if the sustainability goals have been reached. This report does not influence the validation of the internship for the master curriculum.

		Optimisation du potentiel énergétique d'une installation de traitement des granulats	03.10.2022	Holcim (Suisse) SA	Aigle	
		Multi-Frequency, Multi-Modal transduction of Piezoelectric Micromachined Ultrasonic Transducers (PMUTs).	03.10.2022	IMEC	Leuven, Belgium	
		Aerospace smart sensors - R&D embedded software developer	03.10.2022	Meggitt SA	Fribourg	
		Comparing NTA/IDS(Suricata+QosmosDPI, nProbe Cento+nDPI, Mellanox/Nvidia @BF2 ARM AR QosmosDPI) Solutions @100Gbps	02.10.2022	Universitaet Bern	Bern 3012, Hochschulstrasse 6	
		Simulation Based Aerodynamic Performance Evaluation	30.09.2022	Sauber Motorsport AG	Hinwil, Switzerland	
		L'exploitation optimale des installations techniques dans l'environnement bâti	30.09.2022	energo	Lausanne	

 FORUM EPFL

Édition 2023 Étudiants Entreprises Start-ups ONG/OIG Forum EPFL FAQ

Le Forum EPFL fête ses 41 ans !

9 – 13 Octobre 2023 au SwissTech Convention Center

<https://www.forum-epfl.ch/>

EPFL Alumni network

- EPFL students have access to the Alumni network
 - Website: <https://www.epflalumni.ch/students/>
 - Pocketcampus app

The screenshot shows the EPFL Alumni website interface. At the top, there are language options 'en' and 'fr', and navigation links for 'Contact', 'FAQ', 'EPFL homepage', and 'Login'. The EPFL logo is prominently displayed. Below it, a horizontal menu lists various categories: 'BENEFITS', 'DIRECTORY', 'CHAPTERS', 'CAREER', 'COMPANIES', 'STARTUPS', 'MENTORING', and 'STUDENTS' (which is underlined). On the right side, there is a vertical menu with icons and text for 'FREQUENTLY ASKED QUESTIONS', 'UPDATE MY PROFILE', and 'SHOP EPFL'. Below this is a 'Partner' section featuring a green-tinted image of a building with the text 'JOIN OUR INNOVATION COMMUNITY' and the 'NOVAUD' logo. The main content area features a large illustration of a diverse group of people, some wearing EPFL-branded clothing, with the text 'STUDENTS & YOUNG GRADUATES' below it.

EPFL Career Center workshops/presentations

Dear student, Dear doctoral student,

ORACLE invites you to join them for an exclusive insight into Oracle Labs and for an overview of their internship opportunities on **Wednesday, 25 October 2023 à 5.15 p.m. in [Room BC410](#)** .

1. [ORACLE Labs Presentation & Tech Talk \(open to all\): from 5.15 p.m. to 6.15 p.m.](#)

<https://epflcareer.ch/en/>

Oracle Labs is Oracle research center where most of Oracle innovation take place. The research areas span most fields of computer science. This presentation's journey will walk through some areas of Oracle research and development: Generative AI and data science - Data processing as graphs - Compiler graphs- Compilations for cloud native. Join us to discuss those topics with Oracle core engineers!

In the ever-evolving landscape of machine learning, Generative Artificial Intelligence has emerged as a game-changer technology for our everyday and professional lives. In this talk, they'll explore how large language models (LLMs) are transforming software development and data science at Oracle, by assisting developers via code generation, process acceleration and quality assurance.

[>> More about Oracle's Presentation here.](#)

[>> Biography of Oracle's speakers here: Giulia Carocari, Arnaud Delamare, Boris Spasojevic, Martijn Dwars.](#)

[>> References:](#)

- Oracle Labs : <https://labs.oracle.com/>
- GraalVM : <https://www.graalvm.org/>

Other opportunities for finding an internship

- Personal contacts, family, friends
- Topic related agencies and organizations
- Company websites

- EPFL Professors, especially for master projects in Industry

Every Internship found outside the IS-A portal has to be approved by your section. Please send a short but detailed description to Mr. Abdeljalil Sayah as soon as you have found an opportunity

How does the internship portal work ?

- Browse through the internship offers of your Master program
- Apply for a position by uploading 2 mandatory documents:
 - CV
 - motivation letter
- Applications are sent on a weekly basis to the companies (every Monday 14h00)
- Wait for the company to make its selection process (up to several weeks)
- If no response after 2 months, contact:
 - The company if the contact is visible
 - Your internship coordinator if not
- You will be contacted by the company if your application was successful
(Most selection processes involve an interview and several e-mail exchanges)
- You MUST accept only one offer and reject all the others within the next 3 working days.
 - No withdrawal from the accepted position!
 - Kindly notify all other companies you had privileged contact with

- Do not use the portal for personal internship search
- Apply always through the portal for mandatory internship

Some advice to prepare your application documents

- 2 important documents
 - Motivation letter
 - Curriculum vitae (CV)

The criteria for interview selection by the company is mostly based in these documents. Reference letters can be added as well. Your motivation letter should specifically address the company and the proposed subject

- Language : you should use the language of the offer
- To be avoided:
 - No motivation letter
 - copy-paste errors
 - Wrong addressing

Interview

Most companies would like to meet the students for an interview prior to making their final choice

- Be prepared for the interview and demonstrate a professional attitude
 - Non EU/EFTA students: Inform the company about the required work authorization
 - If the living allowance is mentioned in the description, do not bargain. If not mentioned, inquire for it.
 - Follow up: After the interview, write a short e-mail as feedback of your interview to the company.
- For Master projects: Do not accept a position without having confirmed the eligibility of the project and settled the details with the academic supervisor.

Prepare your internship campaign !

EPFL proposes 5 modules of 1h45:

This fall semester

1. Understanding and convincing recruiters
2. The CV sections
3. The motivation letter
4. The Job interview
5. Communication and organization at work

Each course will be given in English and in French

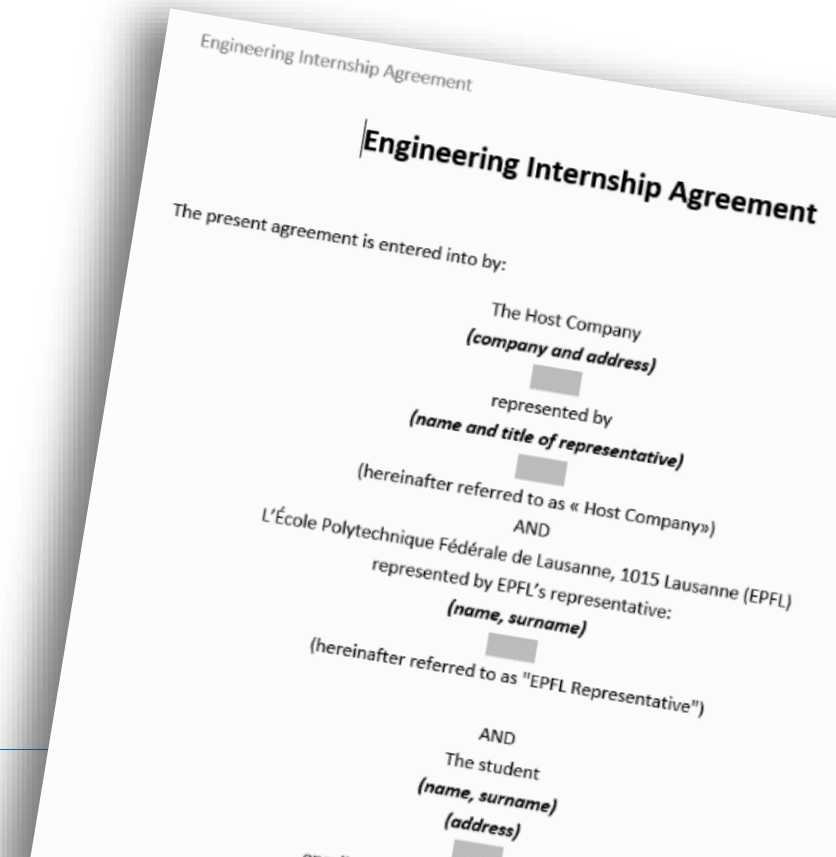

Information and mandatory registration here: <https://epflcareer.ch/en/>

Internship agreement

- The internship agreement specifies the commitments and responsibilities of EPFL, the company and the internship student. This agreement **must be signed** for all engineering internships.
- No other tripartite agreement involving EPFL will be signed by the section.

Mandatory: Register internships found on your own

- Submit a short but detailed description of your internship to Mr. Abdeljalil Sayah
- Once you have signed the tripartite internship agreement, enter your project details on the internship portal by creating a new internship proposal, and upload a pdf copy of the agreement.

Internships - Showroom (stu)

+ You found a work placement, which was not proposed in IS-Academia. Please, do register it clicking [HERE](#).

Nombre de places disponibles : 239 84 displayed item(s) / 84 available item(s)

Context : -- All criteria/words should be contained

Action	Internship	Company	Assignment location	Févr-Sept (P1)	Juil-Févr (P2)	Juil-Sept (P3)	Internship number	Format	Registered	Places	Prof	Creation date of the internship
			=	[all]					25	240		
	Industrial Analytics, IoT, and Mobiles	Schindler Aufzüge AG	Ebikon	✓			19094	Internship	0	1		20.09.2017
	Temperature mapping and monitoring of a complex device	CERN - European Organization for Nuclear Research	CERN, Geneva, Switzerland	✓			19088	Internship	0	1		20.09.2017

Update your FRAC

In case your internship is done during an academic semester, make sure to update your FRAC according to your status:

- Semester: (choose the right one: MA1; MA2; MA3)
- Status : Internship (authorized by the section)
- Mention in the comments « Detached internship but credited with master Project (STAP) »

If you take courses in parallel to your internship, your FRAC status should be «present»

Anticipate !

- A change of residence or relocation might be necessary
- Setting up a Master thesis in industry takes several weeks/months
- Time consuming formalities might be required:
 - Confirm an internship
 - Visa, Work authorization and Residence permit (typically 4-8 weeks)
 - Collection of the signatures of the internship agreement
 - New validation of your passport
 - ...
- It is your responsibility to settle these formalities prior to the Internship beginning

During and after the internship

- ❑ In case of problems (accident or illness, personal problems, conflict with supervisors, ...), contact urgently the STI Internships coordinator.
- ❑ No written report of the student is requested by EPFL (except for credited internships in EE), but can be requested by the company.
- ❑ To validate your internship, an evaluation form has to be filled out by the student and the supervisor in the company (sent out automatically 2 weeks prior to ending).

Evaluation form

Application of scientific and technical knowledge

Planning and management of work tasks

Integration in the professional world

Communication

Independence

	E	G	S	I	N	Comments
Application of scientific and technical knowledge						
Technical skills and knowledge						
Ability to resolve complex problems						
Mastery of domain-specific methodologies						
Planning and management of work tasks						
Definition of work objectives and management of priorities						
Evaluation of resources required						
Work planning, monitoring of activities, and management of emergent issues						
Integration in the professional world						
Respect for the organizations procedures/ rules and for their profession's ethical codes						
Capacity to work in teams						
Quality of the work delivered						
Communication						
Written communication (structure, clarity, coherence of reasoning)						
Oral communication (clarity, reasoning, self-confidence)						
Interpersonal skills and engagement, including in a multicultural context						
Independence						
Ability to present and defend her/his own ideas						
Capacity to access sources of information and to evaluate them						
Capacity to self-evaluate and to respond constructively to feedback						
Overall Evaluation						

Mandatory Steps for a 2-6 month internship

- Find an internship position and in case you have found it by yourself, without using the IS-A portal, have the subject validated by [Mr. Abdeljalil Sayah](#)
- Inform the [STI coordinator](#) that you have found your internship.
- Cancel all ongoing applications by gently notifying the companies. This step is extremely important to keep a good relationship with future employers.
- Transmit the [EPFL internship agreement](#) to the employer and have it filled out and signed by the employer and Mr. Abdeljalil Sayah.
- Transmit a copy of the agreement to the section secretariat.
- If you are a non-swiss/EU citizen, ask the company to request a work authorization for the duration of the internship. More [information here](#). ([Link](#) to obtain a mandatory internship certificate.)
- Once all the details of your internship have been settled, enter or edit the details of your internship on the [IS-A internship portal](#). Upload a copy of the signed internship agreement.
- If your internship takes place during an academic semester, make sure to update your FRAC
- At the end of the internship, fill out the evaluation report that will be sent to you by e-mail. The evaluation procedure starts 2 weeks prior to the official ending of the internship. Both the student and the supervisor will fill out an evaluation report.

Best practice to set up a master thesis in industry

Companies get in touch with research labs to propose master thesis topics

Companies can hire students for internship proposals and accept the format change to master thesis projects without involving a Professor

Compatibility with academic calendar

IP owner(s)

Confidentiality

Eligibility of candidate for master thesis

Students contact professors of their section to ask for existing industrial projects

Students apply for internships on the IS-A portal and have it validated as master thesis projects by the company without involving the supervising professor

Professors and teachers propose master thesis projects with known partner companies

Professors and teachers evaluate the academic content of proposals from companies before accepting it as master thesis projects

Professors and teachers evaluate the academic content of student proposals without interacting with the host company

Ideal Scenario for Master Projects in industry

Company has an idea for a master thesis project

Company discusses the project with a Professor

Company submits the proposal on the EPFL portal

Project starts under co-supervision by company and professor

Student applies for the project through the portal and gets accepted by the company

Master thesis in industry, some advice for students

- Give priority to Master thesis proposals from laboratories of your section and proposals posted on the IS-A portal with confirmed academic supervisor

If you can't find a suitable topic this way, **consider doing an internship to validate your industry immersion.** If this is not an option, then proceed like this:

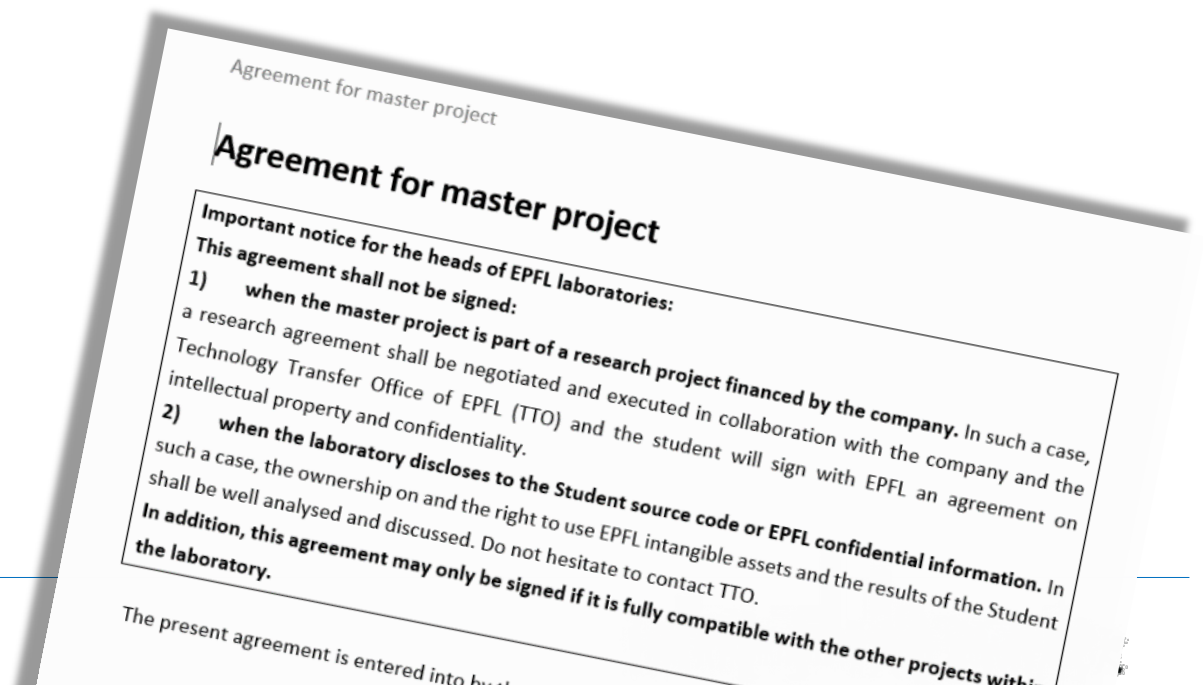

- Contact potential academic supervisors to inform them on your intentions
- Apply for positions and inform companies on your objective to do a master thesis (in motivation letter, during e-mails exchanges and interviews, ...)
- The academic supervisor should discuss with the company about the academic content and administrative formalities. Suggest the signature of the EPFL master thesis agreement (to settle IP and confidentiality).
- Insure a coordinated supervision and regular meetings between the company and the teacher during the project

Master project agreement

- The master thesis agreement specifies the commitments and responsibilities of the supervising teacher, the company and the student.
This agreement **can be signed upon request of the teacher or the company**
- It defines IP and confidentiality aspects for any master thesis in industry without existing collaborations.
- It allows the academic supervisor to have access to the results of your work without having to sign an NDA.
- **As it is not mandatory**, amendments and changes requested by companies won't be accepted by the internship coordination or the legal department of EPFL

Mandatory Steps for a Master project in Industry

- ❑ Find a master project in industry by contacting the professors of your section.
- ❑ A master subject can also be found through the IS-A Internship portal. In this case, it is mandatory to find a professor willing to supervise you before you accept the offer from the company.
- ❑ Official starting dates for master projects are determined at a school level. Other starting dates can be obtained on special request to your section.
- ❑ All administrative details of your master project in industry have to be settled between the employer and the professor supervising your work. A special Master project agreement can be signed on request by the supervising professor or the partner company.
- ❑ Once all the details of your Master project have been settled, **register your project in your study plan.**
- ❑ Update your FRAC

Internships

The Industry Internship
flow in industry and pro

This internship has several
company's processes and
at the EPFL.

Within the framework of

– Internships lasting between

activity could have a more advanced objective, and should aim for the skills acquired by the student during his cursus.

– Master projects should be a personal and original work covering theoretical and practical aspects of a microengineering project. The supervision by an EPFL professor is a guarantee of quality for the student as well as for the company, which remains nevertheless fully owner of the intellectual property of the result of the internship. More information about this format here.
