

LCA for concurrent engineering

Prof. KYRITSIS Dimitris

- Work as a **team of consultants**
- Perform the **environmental assessment of a product** designed in another project.
- Learn how to apply **best practices using Life Cycle Assessment (LCA)**, following the ISO standard and using the software QUANTIS Suite 2.0 (used in the course ME-516 “LIFECYCLE economic and environmental performance of product systems”)
- **Coaching by a real LCA consultant.**

What is Life Cycle Assessment?
