

The background of the slide is a close-up, high-angle photograph of a blue printed circuit board (PCB) with numerous gold-colored components and traces. The image is slightly blurred, creating a sense of depth and technical precision.

EPFL – Internships Energy Science and Technology

Hind Klinke
STI internship
coordinator

- General context
- Administrative procedures

December 2023

The internship: Excellent Opportunity !!!

- Students :

- ✓ **A Great incentive to ask oneself the right questions !**
- ✓ Familiarize with working life
- ✓ Immerse into Industry practice
- ✓ Future Hiring opportunity

- Companies :

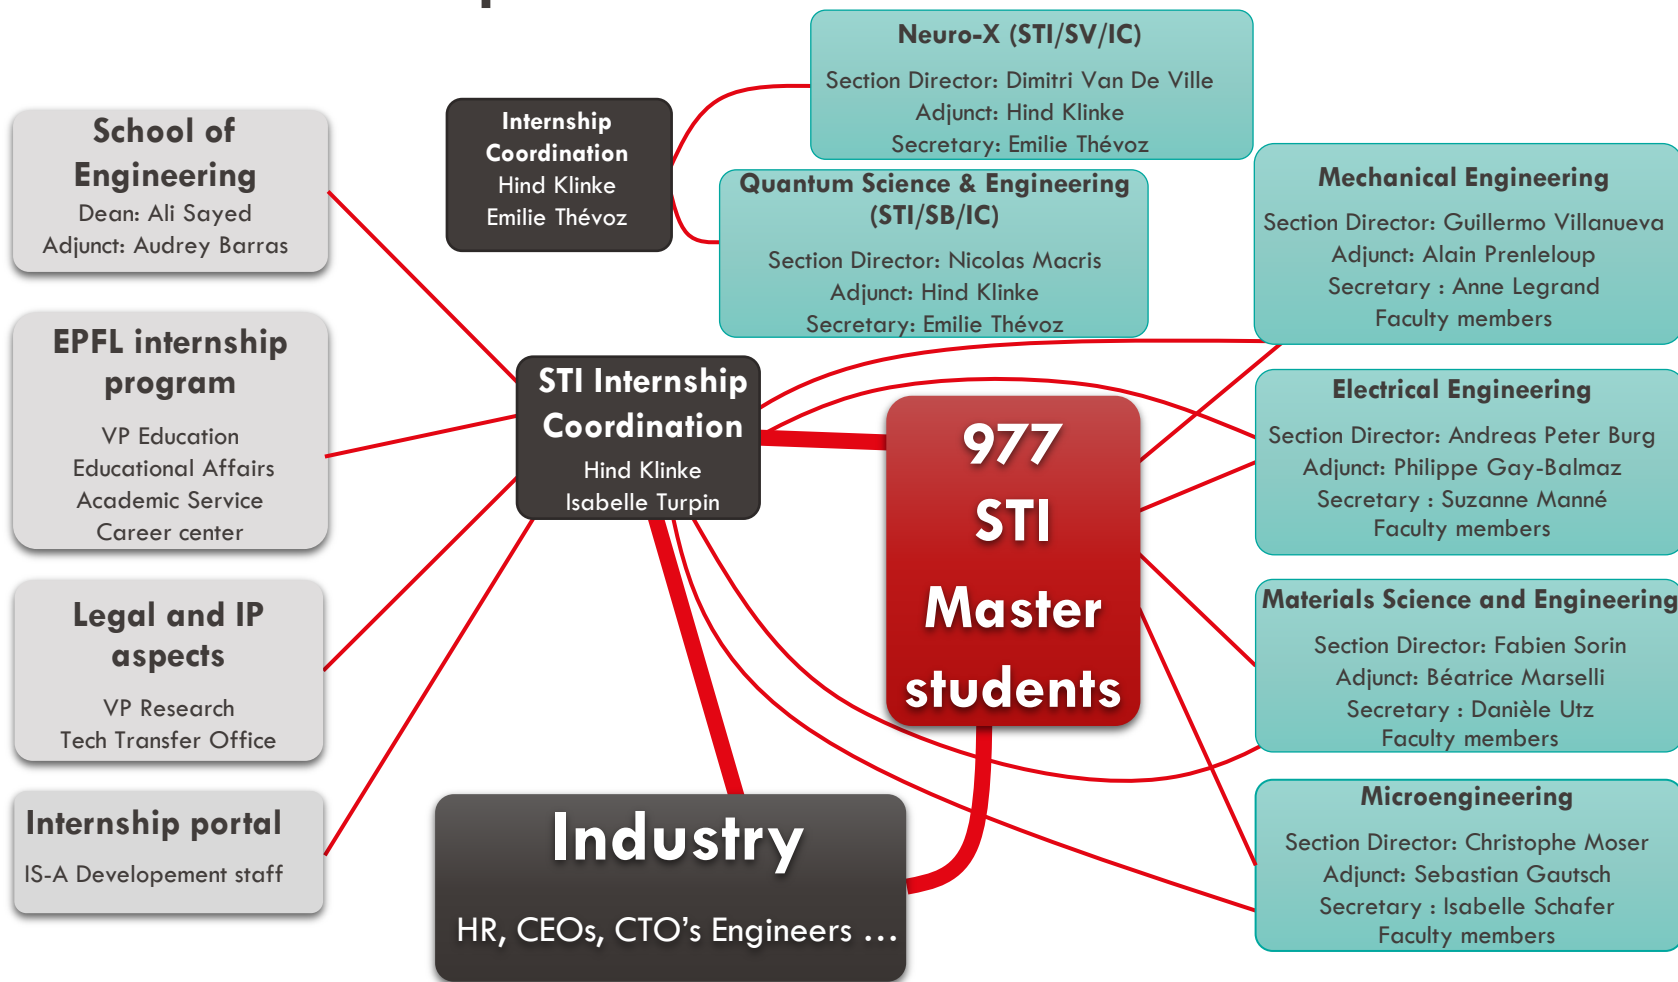

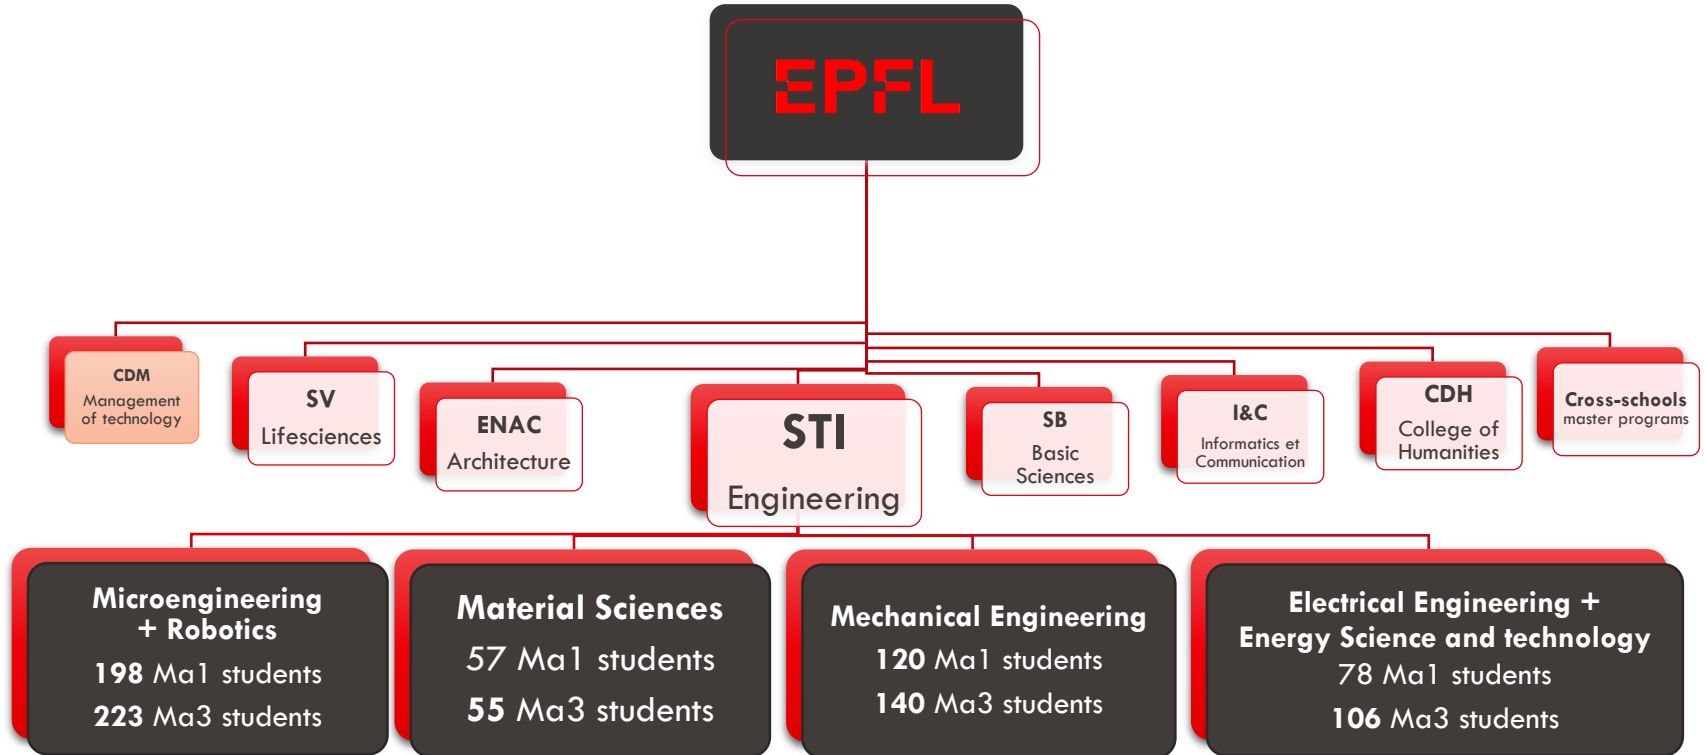

- ✓ Benefit from highly qualified students
- ✓ A new insight on current issues, innovate !
- ✓ Evaluate futur employees

- EPFL :

- ✓ A direct link to industry
- ✓ A platform to start collaboration on the research level
- ✓ Feedback from industry to improve the education of our students

- ✓ The Internship in industry is a mandatory step of the Master degree
- ✓ Possible formats to validate this obligation

Models:

STAP: Detached internship but credited with the master's project

PDME: Master project in the industry

	Models	Duration	Periods
Energy Science and Technology	STAP	Min. 8 weeks	After bachelor, after MA2 or MA3
	PDME	25 weeks	During the Master project

■ Internship

- ✓ Minimum duration of 2 months, up to 6 months
- ✓ Immersion into industry
- ✓ Familiarize with company processes
- ✓ Acquire specific competences
- ✓ Apply transversal skills
- ✓ Evaluation report by student and industry supervisor

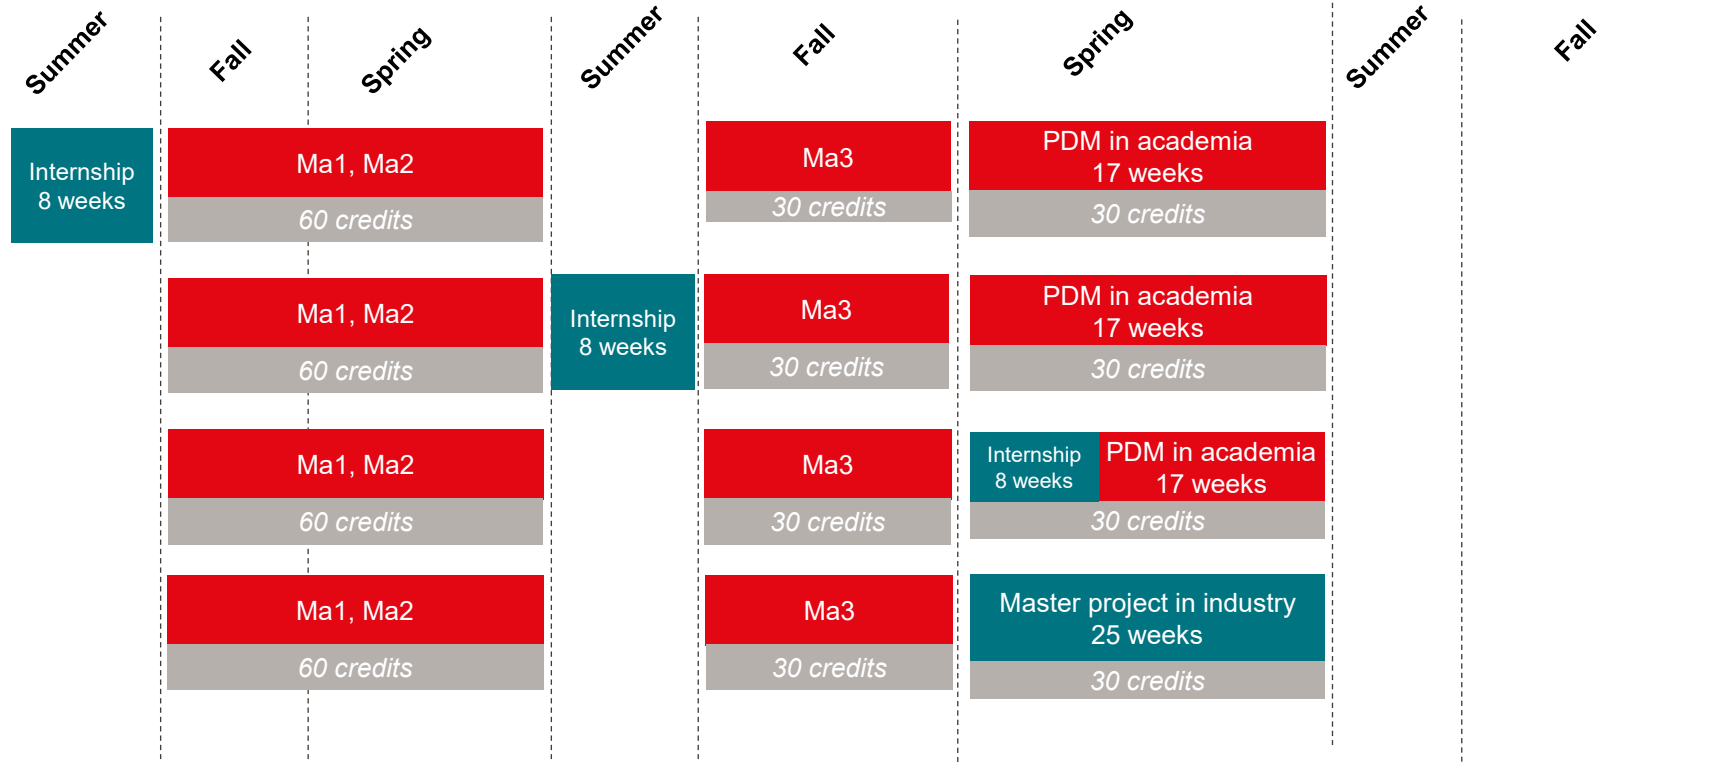

■ Master project in industry

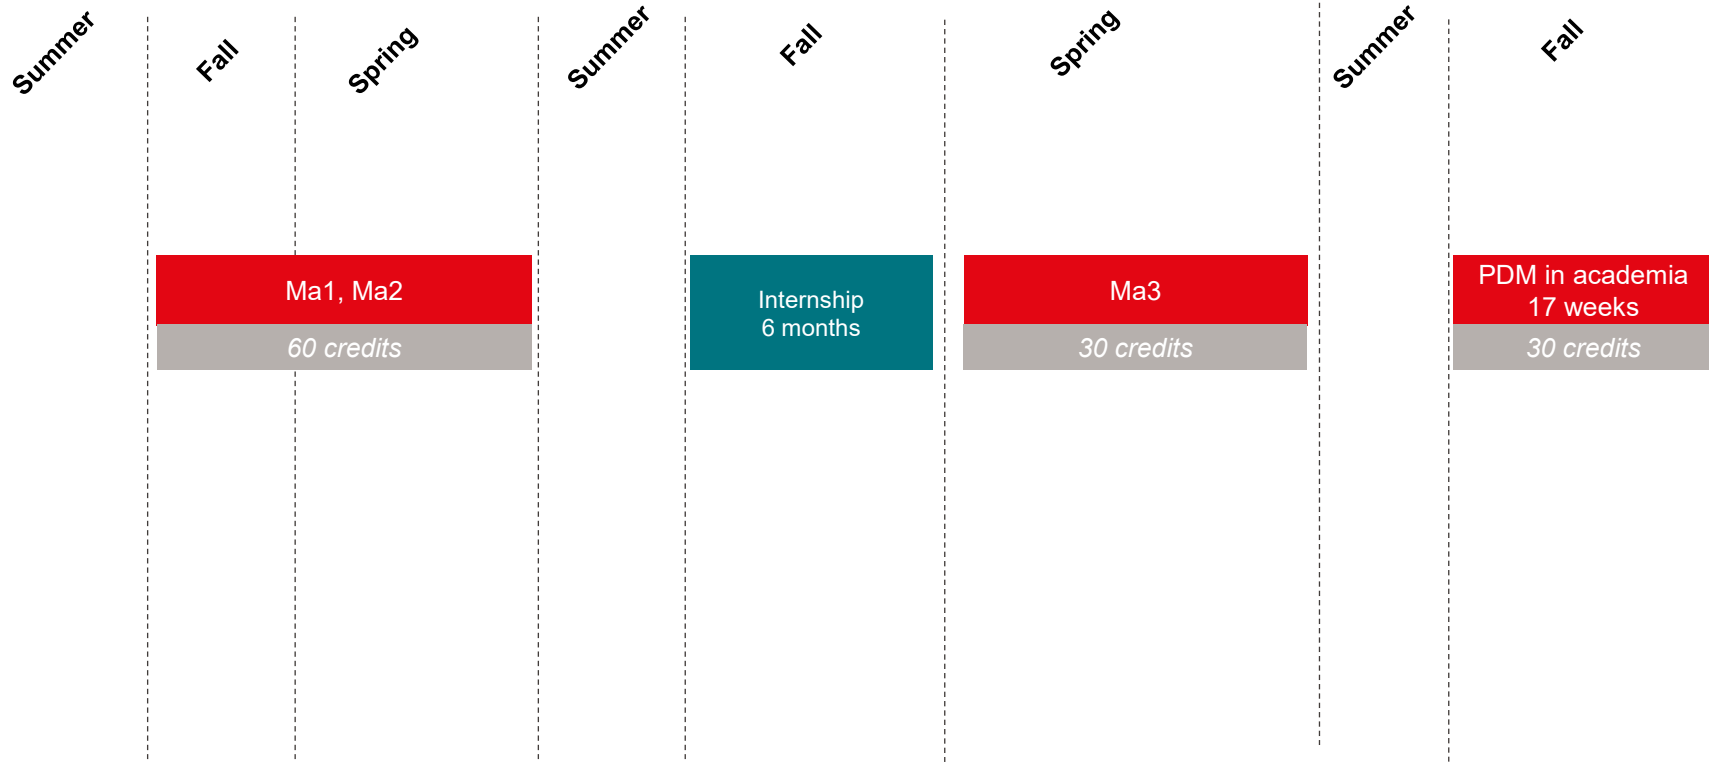

- ✓ A research project in the company
- ✓ Student applies the competences acquired during his master
- ✓ Supervised by a Professor **from his section**
- ✓ Written report and oral defense
- ✓ **Regular feedback to Professor**
- ✓ 25 week duration (+1 week vacation)

When to place your internship / Master thesis

■ PDM in academia in foreign Universities: 25 weeks

■ PDM in academia in foreign Universities: 25 weeks

■ PDM in academia in foreign Universities: 25 weeks

■ PDM in academia in foreign Universities: 25 weeks

- If you have finished your bachelor and would like to take an interim year to do your mandatory industry internship for your master, [the following academic rules](#) and FRAC status' apply:

	Summer	Fall semester	Spring semester	Summer	Fall Semester
Option 1		Internship up <i>To 6 months:</i> FRAC "INTERNSHIP" Registered in Ba5	Start master FRAC "present" Registered in Ma2		
Option 2		Internship up <i>To 6 months:</i> FRAC "INTERNSHIP" Registered in Ba5	No master start FRAC «on leave» Semester does not count		Start master FRAC "present"
Option 3		Start master FRAC "present" Registered in Ma1	Internship up <i>To 6 months:</i> FRAC "INTERNSHIP" Registered in Ba6		
Option 4		No master start For motivated reasons FRAC «on leave»	Internship up <i>To 6 months:</i> FRAC "INTERNSHIP" Registered in Ba6		Start 2 nd master semester FRAC "present"

In option 4 the fall semester will be accounted to your master studies, except if you are doing your army or civil service

What is considered «Industry»?

- Every company or start-up offering a workplace outside of an EPFL laboratory and outside of a university
- Every Research Organisation not delivering academic credits

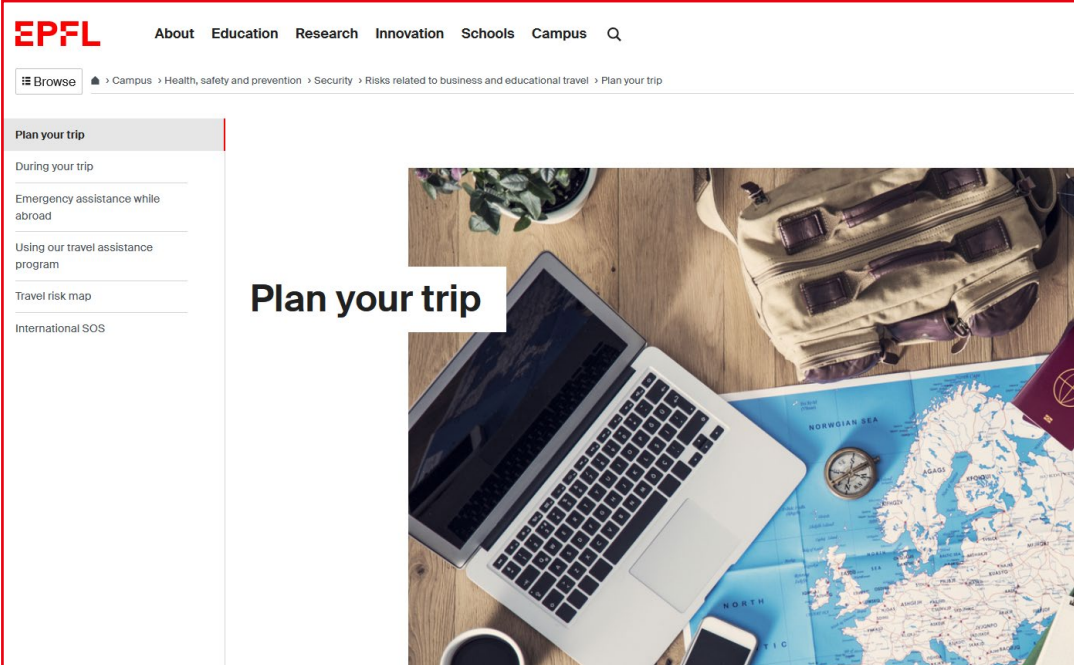

- There is no official regulation in Switzerland to pay a monthly salary for an internship.
- Salaries are mostly ruled by offer and demand
- Often the salary is dependent of the company's size and status
- EPFL recommends a typical monthly salary around **2'000** SFr. However, there is no obligation of the company to comply with this.

- In Case of a Master Project in Industry, remuneration can be handled more freely (no monthly salary, compensations, bonus at the end, ...)

Some recommendations for an internship abroad :

<https://www.epfl.ch/campus/security-safety/en/security/travels-abroad/plan/>

EPFL About Education Research Innovation Schools Campus Q

Plan your trip

NORWEGIAN SEA
NORTH ATLANTIC

Your start-up as substitute to a master thesis in industry?

- A few students will be able to undertake their master projects in industry, at the EPFL Innovation Park to work for their own startup.
- Projects will be co-supervised by a mentor from the Vice Presidency for Innovation and a professor from the section
- This opportunity will be offered to 3-4 projects per year. Students will have to go through a selection process, start by contacting pdm-eip@epfl.ch.
- More information about the program could be found here:
 - ✓ <https://www.epfl.ch/innovation/startup/students/master-project-in-your-startup/>

(not required for Master Projects without a monthly remuneration)

- The federal council allows foreign students of Swiss academic institution to perform a mandatory internship during their studies: <https://www.admin.ch/opc/fr/classifiedcompilation/20070993/index.html#a39>
- Students with Non-EU/EFTA passports require a valid **work authorization** to do their internship or Master project with monthly salary in Switzerland or EU countries.
- EU students performing a 3-6 month internship have to be simply **announced** at the cantonal office
- It is the company's responsibility to request this authorization at the proper working office of their canton/country ([Link](#) to obtain a mandatory internship certificate).
- It requires up to 8 weeks to obtain this authorization from the cantonal offices.
- We recommend that students from non-EU/EFTA countries inform the companies in their motivation letter of these regulations.

Example: "As I'm a non-EU/EFTA resident, your company would be required to ask for a temporary work authorization. Please be advised that the federal council allows foreign students of Swiss academic institution to perform a mandatory internship during their studies:

<https://www.admin.ch/opc/fr/classified-compilation/20070993/index.html#a39>. As I will stay registered at EPFL during this internship, and since this internship is a mandatory part of my Master education, the delivery of this document does not fall into the quota limitation of each canton and is therefore straightforward".

The background of the slide is a close-up, high-angle photograph of a blue printed circuit board (PCB). The board is densely packed with gold-colored components, including various surface-mount devices, pads, and intricate circuit traces. The lighting creates a sense of depth and highlights the metallic textures.

EPFL – Internships Energy Science and Technology

Hind Klinke
STI internship
coordinator

- **Administrative
procedures**

December 2023

- It is the student's responsibility to find an appropriate internship to validate his Master degree.
- No responsibility can be taken from EPFL side if no internship has been found by the student
- The student can find an internship position by himself, but the subject needs to be approved by the section deputy
- EPFL offers an internship portal on which students can find an alternative to their personal quest for finding an internship.
- Access to the EPFL portal is given through the student's IS-Academia account

- How to identify them ?

Company submissions are listed on the internship portal once validated by each section. Internships with a sustainability label will be identifiable with the following logo:

- Evaluation report

The evaluation process of the internship is similar to a regular internship but the student is asked to write a **half-page report** to comment if the sustainability goals have been reached. This report does not influence the validation of the internship for the master curriculum.

		Optimisation du potentiel énergétique d'une installation de traitement des granulats	03.10.2022	Holcim (Suisse) SA	Aigle	
		Multi-Frequency, Multi-Modal transduction of Piezoelectric Micromachined Ultrasonic Transducers (PMUTs).	03.10.2022	IMEC	Leuven, Belgium	
		Aerospace smart sensors - R&D embedded software developer	03.10.2022	Meggitt SA	Fribourg	
		Comparing NTA/IDS(Suricata+QosmosDPI, nProbe Cento+nDPI, Mellanox/Nvidia @BF2 ARM AR QosmosDPI) Solutions @100Gbps	02.10.2022	Universitaet Bern	Bern 3012, HochschulStrasse 6

FORUM EPFL

Édition 2023 Étudiants Entreprises Start-ups ONG/OIG Forum EPFL FAQ

Le Forum EPFL fête ses 41 ans !

9 – 13 Octobre 2023 au SwissTech Convention Center

EPFL students have access to the Alumni network

Website: <https://www.epflalumni.ch/students/>

Pocketcampus app

The screenshot shows the EPFL Alumni website's 'STUDENTS' page. At the top left, there are language options 'en' and 'fr'. The top right contains links for 'Contact', 'FAQ', 'EPFL homepage', and 'Login'. The EPFL logo is prominently displayed on the left. A navigation menu below the logo includes 'BENEFITS', 'DIRECTORY', 'CHAPTERS', 'CAREER', 'COMPANIES', 'STARTUPS', 'MENTORING', and 'STUDENTS' (which is underlined). On the right side, there is a vertical sidebar with icons and text for 'FREQUENTLY ASKED QUESTIONS', 'UPDATE MY PROFILE', and 'SHOP EPFL'. Below this sidebar, a 'Partner' section features a green-tinted image of a building with the text 'JOIN OUR INNOVATION COMMUNITY' and the 'NOVAUD' logo. The main content area features a large illustration of a diverse group of people, some wearing EPFL-branded clothing, walking together. At the bottom of this illustration, the text 'STUDENTS & YOUNG GRADUATES' is written.

Dear student, Dear doctoral student,

ORACLE invites you to join them for an exclusive insight into Oracle Labs and for an overview of their internship opportunities on **Wednesday, 25 October 2023 à 5.15 p.m. in [Room BC410](#)** .

1. [ORACLE Labs Presentation & Tech Talk \(open to all\): from 5.15 p.m. to 6.15 p.m.](#)

Oracle Labs is Oracle research center where most of Oracle innovation take place. The research areas span most fields of computer science. This presentation's journey will walk through some areas of Oracle research and development: Generative AI and data science - Data processing as graphs - Compiler graphs- Compilations for cloud native. Join us to discuss those topics with Oracle core engineers!

In the ever-evolving landscape of machine learning, Generative Artificial Intelligence has emerged as a game-changer technology for our everyday and professional lives. In this talk, they'll explore how large language models (LLMs) are transforming software development and data science at Oracle, by assisting developers via code generation, process acceleration and quality assurance.

>> [More about Oracle's Presentation here.](#)

>> [Biography of Oracle's speakers here: Giulia Carocari, Arnaud Delamare, Boris Spasojevic, Martijn Dwars.](#)

>> References:

- Oracle Labs : <https://labs.oracle.com/>

- Personal contacts, family, friends
- Topic related agencies and organizations
- Company websites

- EPFL Professors, especially for master projects in Industry

Every Internship found outside the IS-A portal has to be approved by your section. Please send a short but detailed description to the section deputy as soon as you have found an opportunity

- Browse through the internship offers of your Master program
- Apply for a position by uploading 2 mandatory documents:
 - ✓ CV
 - ✓ motivation letter
- Applications are sent on a weekly basis to the companies (every Monday 14h00)
- Wait for the company to make its selection process (up to several weeks)
- If no response after 2 months, contact:
 - ✓ The company if the contact is visible
 - ✓ Your internship coordinator if not
- You will be contacted by the company if your application was successful
(Most selection processes involve an interview and several e-mail exchanges)
- You MUST accept only one offer and reject all the others within the next 3 working days.
 - ✓ No withdrawal from the accepted position!
 - ✓ Kindly notify all other companies you had privileged contact with
-

- 2 important documents

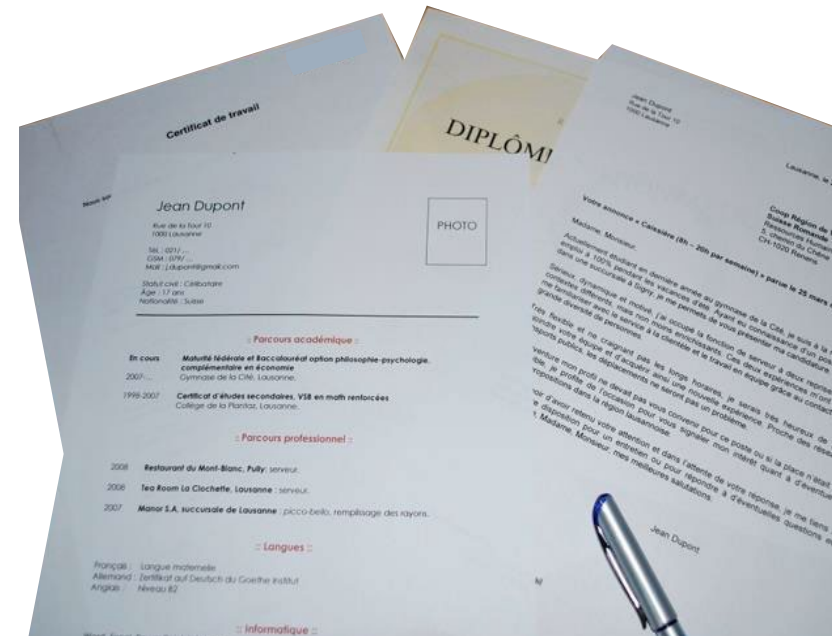

- ✓ Motivation letter
- ✓ Curriculum vitae (CV)

The criteria for interview selection by the company is mostly based in these documents. Reference letters can be added as well. Your motivation letter should specifically address the company and the proposed subject

- Language** : you should use the language of the offer

- To be avoided:**

- ✓ No motivation letter
- ✓ copy-paste errors
- ✓ Wrong addressing

Most companies would like to meet the students for an interview prior to making their final choice

- Be prepared for the interview and demonstrate a professional attitude
- Non EU/EFTA students: Inform the company about the required work authorization
- If the living allowance is mentioned in the description, do not bargain. If not mentioned, inquire for it.
- Follow up: After the interview, write a short e-mail as feedback of your interview to the company.
- For Master projects: Do not accept a position without having confirmed the eligibility of the project and settled the details with the academic supervisor.

EPFL proposes 5 modules of 1h45:

This fall semester

1. Understanding and convincing recruiters
2. The CV sections
3. The motivation letter
4. The Job interview
5. Communication and organization at work

Each course will be given in English and in French

Information and mandatory registration here: <https://epflcareer.ch/en/>

- The internship agreement specifies the commitments and responsibilities of EPFL, the company and the internship student.

This agreement must be signed for all engineering internships.

- No other tripartite agreement involving EPFL will be signed by the section.

Engineering Internship Agreement

Engineering Internship Agreement

The present agreement is entered into by:

The Host Company
(company and address)

■

represented by

(name and title of representative)

■

(hereinafter referred to as « Host Company»)

AND

L'École Polytechnique Fédérale de Lausanne, 1015 Lausanne (EPFL)

represented by EPFL's representative:

(name, surname)

■

(hereinafter referred to as "EPFL Representative")

AND

The student

(name, surname)

(address)

■

enrolled for the Master ■. Year ■.

(hereinafter referred to as « Student »)

- Submit a short but detailed description of your internship to your section's deputy
- Once you have signed the tripartite internship agreement, enter your project details on the internship portal by creating a new internship proposal, and upload a pdf copy of the agreement.

Internships - Showroom (stu)

+ You found a work placement, which was not proposed in IS-Academia. Please, do register it clicking [HERE](#).

Nombre de places disponibles : 239 84 displayed item(s) / 84 available item(s)

Context : -- All criteria/words should be contained

Action	Internship	Company (t...)	Assignment location	Févr-Sept (P1)	Juil-Févr (P2)	Juil-Sept (P3)	Internship number	Format	Registered	Places	Prof	Creation date of the internship
			<input type="text" value="="/> <input type="text" value="[all]"/>						25	240		
	Industrial Analytics, IoT, and Mobiles	Schindler Aufzüge AG	Ebikon	✓			19094	Internship	0	1		20.09.2017
	Temperature mapping and monitoring of a complex device	CERN - European Organization for Nuclear Research	CERN, Geneva, Switzerland	✓			19088	Internship	0	1		20.09.2017

In case your internship is done during an academic semester, make sure to update your FRAC according to your status:

- Semester: (choose the right one: MA1; MA2; MA3)
- Status : Internship (authorized by the section)
- Mention in the comments « Detached internship but credited with master Project (STAP) »

If you take courses in parallel to your internship,
your FRAC status should be «present»

- A change of residence or relocation might be necessary
- Setting up a Master thesis in industry takes several weeks/months
- Time consuming formalities might be required:
 - ✓ Confirm an internship
 - ✓ Visa, Work authorization and Residence permit (typically 4-8 weeks)
 - ✓ Collection of the signatures of the internship agreement
 - ✓ New validation of your passport
 - ✓ ...
- It is your responsibility to settle these formalities prior to the Internship beginning

- In case of problems (accident or illness, personal problems, conflict with supervisors, ...), contact urgently the STI Internships coordinator.
- No written report of the student is requested by EPFL (except for credited internships in EE), but can be requested by the company.
- To validate your internship, an evaluation form has to be filled out by the student and the supervisor in the company (sent out automatically 2 weeks prior to ending).

✓ Application of scientific and technical knowledge

✓ Planning and management of work tasks

✓ Integration in the professional world

✓ Communication

✓ Independence

	E	G	S	I	N	Comments
Application of scientific and technical knowledge						
Technical skills and knowledge						
Ability to resolve complex problems						
Mastery of domain-specific methodologies						
Planning and management of work tasks						
Definition of work objectives and management of priorities						
Evaluation of resources required						
Work planning, monitoring of activities, and management of emergent issues						
Integration in the professional world						
Respect for the organizations procedures/ rules and for their profession's ethical codes						
Capacity to work in teams						
Quality of the work delivered						
Communication						
Written communication (structure, clarity, coherence of reasoning)						
Oral communication (clarity, reasoning, self-confidence)						
Interpersonal skills and engagement, including in a multicultural context						
Independence						
Ability to present and defend her/his own ideas						
Capacity to access sources of information and to evaluate them						
Capacity to self-evaluate and to respond constructively to feedback						
Overall Evaluation						

- Find an internship position and in case you have found it by yourself, without using the IS-A portal, have the subject validated by your **section deputy**.
- Inform the **STI coordinator** that you have found your internship.
- Cancel all ongoing applications by gently notifying the companies. This step is extremely important to keep a good relationship with future employers.
- Transmit the **EPFL internship agreement** to the employer and have it filled out and signed by the employer and the section deputy.
- Transmit a copy of the agreement to the section secretariat.
- If you are a non-Swiss/EU citizen, ask the company to request a work authorization for the duration of the internship. ([Link](#) to obtain a mandatory internship certificate.)
- Once all the details of your internship have been settled, **enter or edit the details of your internship on the IS-A internship portal**. Upload a copy of the signed internship agreement.
- If your internship takes place during an academic semester, make sure to **update your FRAC**.
- At the end of the internship, **fill out the evaluation report** that will be sent to you by e-mail. The evaluation procedure starts 2 weeks prior to the official ending of the internship. Both the student and the supervisor will fill out an evaluation report.

Compatibility with academic calendar

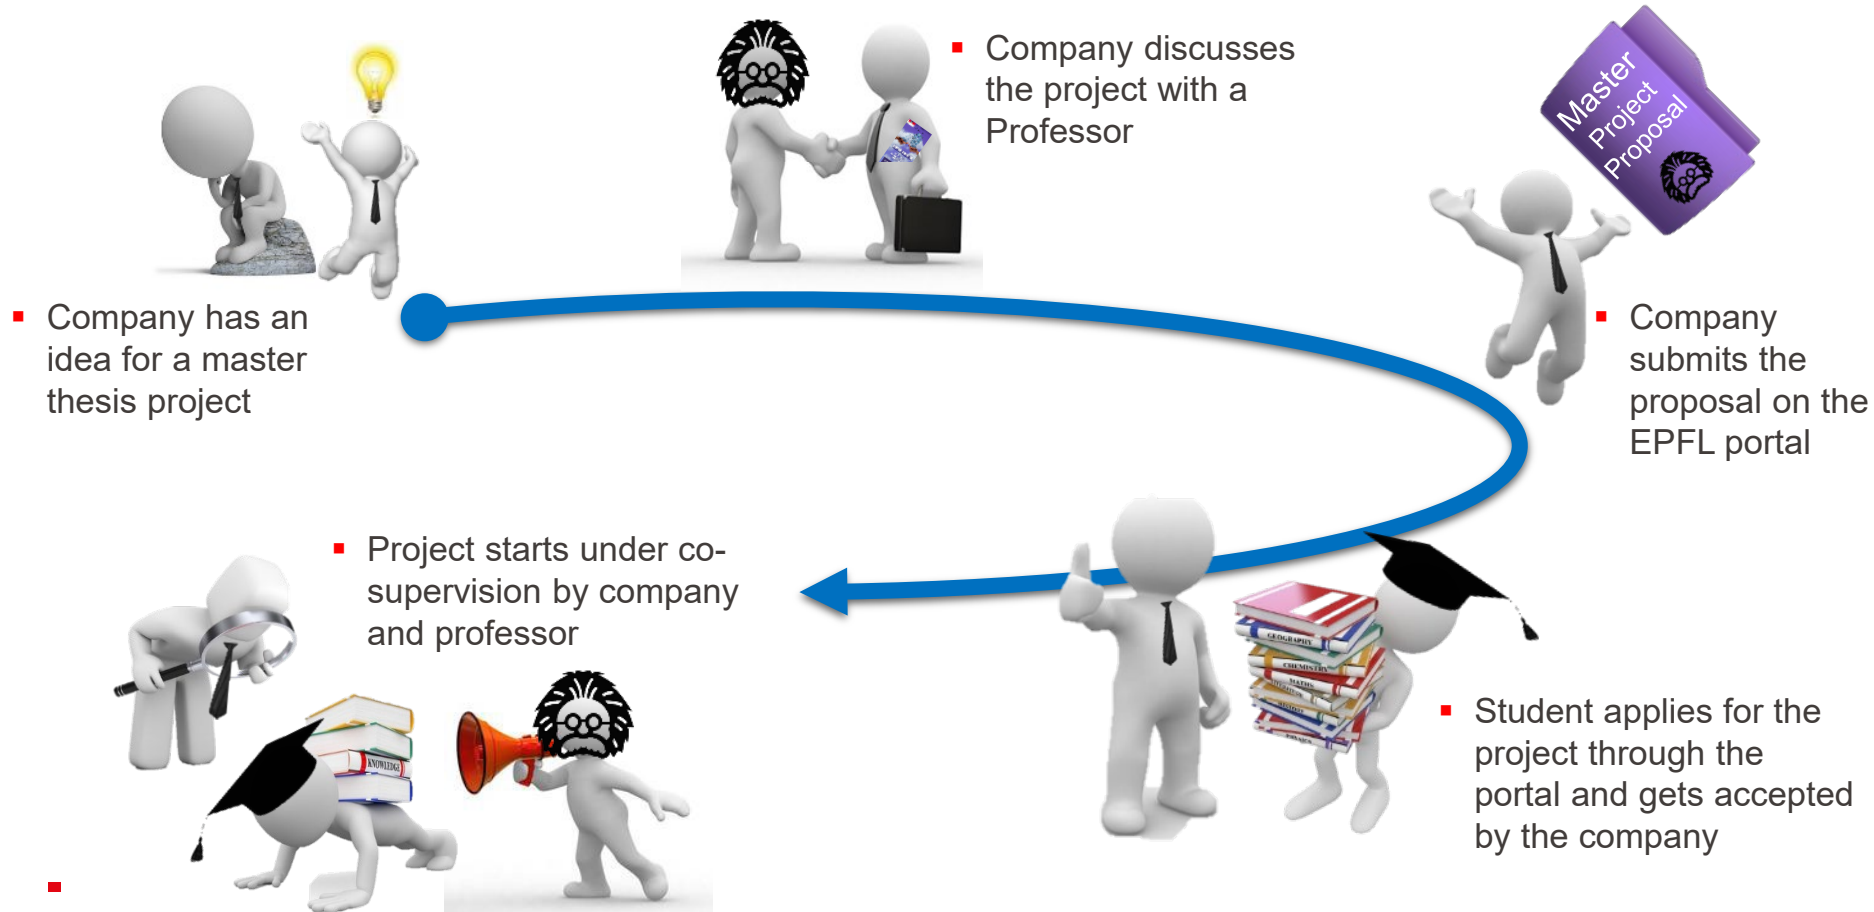

IP owner(s)

Confidentiality

Eligibility of candidate for master thesis

-> Give priority to Master thesis proposals from laboratories of your section and proposals posted on the IS-A portal with confirmed academic supervisor

If you can't find a suitable topic this way, **consider doing an internship to validate your industry immersion.** If this is not an option, then proceed like this:

- Contact potential academic supervisors to inform them on your intentions
- Apply for positions and inform companies on your objective to do a master thesis (in motivation letter, during e-mails exchanges and interviews, ...)
- The academic supervisor should discuss with the company about the academic content and administrative formalities. Suggest the signature of the EPFL master thesis agreement (to settle IP and confidentiality).
- Insure a coordinated supervision and regular meetings between the company and the teacher during the project

- The master thesis agreement specifies the commitments and responsibilities of the supervising teacher, the company and the student.

This agreement **can be signed upon request of the teacher or the company**

- It defines IP and confidentiality aspects for any master thesis in industry without existing collaborations.
- It allows the academic supervisor to have access to the results of your work without having to sign an NDA.
- **As it is not mandatory**, amendments and changes requested by companies won't be accepted by the internship coordination or the legal department of EPFL

Agreement for master project

Agreement for master project

Important notice for the heads of EPFL laboratories:

This agreement shall not be signed:

- 1) **when the master project is part of a research project financed by the company.** In such a case, a research agreement shall be negotiated and executed in collaboration with the company and the Technology Transfer Office of EPFL (TTO) and the student will sign with EPFL an agreement on intellectual property and confidentiality.
- 2) **when the laboratory discloses to the Student source code or EPFL confidential information.** In such a case, the ownership on and the right to use EPFL intangible assets and the results of the Student shall be well analysed and discussed. Do not hesitate to contact TTO.

In addition, this agreement may only be signed if it is fully compatible with the other projects within the laboratory.

The present agreement is entered into by the three following Parties:

The host company

█ (company and address)

Represented by

█ (name and title of representative)

(hereinafter referred to as "Company")

AND

Ecole Polytechnique Fédérale de Lausanne, 1015 Lausanne (EPFL)

Represented by professor EPFL

- Find a master project in industry by contacting the professors of your section.
- A master subject can also be found through the IS-A Internship portal. In this case, it is mandatory to find a professor willing to supervise you before you accept the offer from the company.
- Official starting dates for master projects are determined at a school level. Other starting dates can be obtained on special request to your section.
- All administrative details of your master project in industry have to be settled between the employer and the professor supervising your work. A special Master project agreement can be signed on request by the supervising professor or the partner company.
- Once all the details of your Master project have been settled, **register your project in your study plan.**
- Update your FRAC

▪ [General information](#) about Master's Projects
