Instructions - MX fellowship

Instructions

You are about to apply for the following advertised position at EPFL: "MX Fellowship 2026". During the application process you will have to submit your personal data (name, contact information, etc.) as well as information about your academic background (current position and affiliation, name of university, etc.).

In addition, you are required to submit the following documents as separate PDF files. The PDF files must not contain any password protection or encryption.

Mandatory Documents:

Academic transcripts from each university you have attended (max 5 MB)
Copy of your University degree(s), if already available (max 5MB)
Curriculum vitae (max 5 MB)
Letter from you home-university confirming that the project is part of the curriculum (max 5MB)
Motivation letter (where you explain your research statement and target host labs (up to 3) as well as the wished starting and ending dates of the Master's research work. Indicate if you have already been in contact with potential host labs) (max 5MB)
Name of 1 to 3 references
Scan of passport (or national ID document if you do not have a passport) (max 5 MB)

Optional Documents:

Other documents 1 (max 5 MB)
Other documents 2 (max 5 MB)

Please have the required documents (one PDF file per requested document, max. 5 MB) and information on your academic background ready before you continue this application process.

Please note that the files and data you submit will be treated as strictly confidential and will only be accessible to the MX Fellowship program committee and duly authorized staff.

NOTE: Once you have reviewed and submitted your information in the last step, the application process is completed and you will no longer have the possibility to modify the submitted data.

Privacy Policy - MX fellowship

Data controller

EPFL is the data controller.

Data processing

You are applying for a program at EPFL. In this connection, data such as surname, forename, gender, email address, academical background together with other documents submitted with your application are recorded and/or processed. In addition, online data are recorded (such as IP address, location, browser version, access date and time). This information is stored in log files for technical and traceability purposes.

Purpose of data processing

That data is processed according to the Swiss Federal Data Protection Act (FADP) and art. 36a of the Federal Act on the Federal Institutes of Technology (ETH Act), in particular to assess your application and for recruitment purposes.

Your data may be processed for statistical purposes (e.g. reporting) but in this case it is anonymised and not attributable to a particular individual.

Completeness of data

You hereby confirm that your data is correct, up to date and complete. Please note that if any data is found to be false, this may result in the termination of any selection relationship.

Security

For the selection of candidates, EPFL uses the software services of frentix GmbH (Okenstrasse 6, 8037 Zurich), which specialises, among other services, in IT solutions for appointment processes. Your data is encrypted and sent to EPFL via the website https://programs-recruiting.epfl.ch/dmz/ and is stored or processed on its systems in Switzerland. The data is processed in accordance with the latest technology and appropriate technical and organisational security measures are taken to protect it, in particular against loss, destruction, alteration, or access by unauthorised persons. Persons involved in the selection together with persons involved for support purposes are subject to strict confidentiality requirements and consequently, no data is transmitted to unauthorised third parties. On receipt of your application an email acknowledgement is sent immediately.

Access to data

The files and data you submit will be treated as strictly confidential and will only be accessible to the program committee, members of recruiting laboratories, experts and duly authorized staff. In exceptional cases, i.e. to the extent that this is required for the purposes of support and ongoing software functionality, employees of frentix GmbH also have access to the system.

Right to information and to change and delete data

At any time, you may request information on the current status of your application and your data. At any time, you may ask for your electronic data to be changed or deleted. Any request for information or to change or delete data should be sent to: programs-recruiting@groupes.epfl.ch.

Deletion of data

Your data, including the application documents are deleted no later than 2 years after the completion of the selection process. If you are selected for a program, your data, including the documentation submitted as part of the selection process, are transferred to your electronic personnel file.

Jurisdiction and applicable law

Swiss material laws are applicable. The place of execution and of jurisdiction is in Lausanne, at the registered office of EPFL.

Consent

☑ By marking the checkbox and clicking on the button "Next", you accept the Privacy Policy and are consenting to the storage and processing of your data. Your consent is logged.

Academic background - MX fellowship

Please enter the requested data about your academic background. Fields marked with an * are mandatory. Please read the following instructions before filling in the data:

If your university does not appear in this list at "University where you are currently enrolled as student", DO NOT WORRY: specify "other" (last entry in the dropdown list) and enter the name of your university (please use the official name and check that there are no typos).

"Current program major": Use your own judgement to select the program major in the list that is closest to yours (e.g., use "communication systems" for a program in "telecommunication and network engineering") or to identify the dominant aspects in combinations that do not appear in the list (e.g., "Electrical and Electronics Engineering" and "Computer Science", for a program in "electronic and computer engineering"). If you feel that the available options are not well describing your program major, select the best fit and use the "Comment" field at the end of the form to add information.

"Last official GPA": Specify the cumulative GPA at the time of application, exactly in the format provided by your school on your transcripts, without attempting to rescale it to 0-100 or 0-4 or adapt it to any specific system. Do not give the GPA of the last semesters only but use the cumulative GPA. If your school does not compute an official GPA, please simply compute an average of all your grades, ideally with grades weighted by the number of credits of the courses. If you come from the German system, do not worry: we do know that 1.0 is the best possible grade.

We ask you if the internship is recognized by your home university (i.e., if you can get credits for it): do not worry if the answer is "No" or "I do not know". This has no influence on the selection process.

✴ Did you successfully complete your Bachelor?   ○ Yes ○ No

✴ University where you are currently enrolled as student
[Country of University - University name ▼]

✴ Country of your university
[Please choose ▼]

✴ Current program
[Please choose ▼]

✴ Current year in program
[Please choose ▼]

✴ Current program major
[Please choose ▾]

✴ Current official GPA (i.e. your GPA versus the maximum GPA of your university grading system, in the format provided by your school)
[i.e. 3.7/4 or 8.7/10 or 89/100 etc...]

✴ Is this internship recognized by your home university? (i.e. will you get credits for it?)   ○ Yes ○ No ○ I do not know

Your current rank versus number of students in your program
[i.e 3/60 etc...]

Previously obtained academic degree (if any)
[Please choose ▼]

Previous universty (if any)
[Please choose ▼]

Country of previous university (if any)
[Please choose ▼]

GPA of previous degree (if any - your GPA versus the maximum GPA of your university grading system, in the format provided by your school)
[i.e 3.8/4or 8.7/10 or 80/100]

Preferences - MX fellowship

Please enter three preferences in terms of research domains and host professors. Fields marked with an * are mandatory.

The list of professors and laboratories participating to the E3 program can be found at https://eee.epfl.ch/e3-host-labs/. Do not specify any professor if you are not sure or have no particular choice in mind. Not specifying a professor is not going to have any negative impact on your application but specifying one who is not active in the domain you are interested in might be damaging.

✳ 1st lab choice (Professor surname)   Please choose

✳ 2nd lab choice (Professor surname)   Please choose

✳ 3rd lab choice (Professor surname)   Please choose

Comments (if any)   Please enter your comments here if any
